

Integrated Point of Sale (POS) Solution for Hospitals

Integrate your front and back of house applications with a POS solution designed for Healthcare

Support Quick-Service & Self-Service

Offer a true "grab-n-go" experience from anywhere with the ability to scan or weigh items and offer charge options for pre-packaged or self-serve meals. Visitors and staff will love the **Self-Service Kiosk** that allows for rapid and efficient purchases even during night hours when you can't otherwise staff the checkouts.

Use One System For Your POS and Patient-Centered Meal Selection Needs

MealSuite is fully integrated from the kitchen to the cafeteria/bistro and up to floors! Staff can take patient orders rapidly with real time data (diet orders, preferences and more) in room service settings or at the bedside. Orders taken via tablet print in the kitchen for tray lines or can show on kitchen display screens so your team has ideal "heads up" views of production needs if you're doing short order prep.

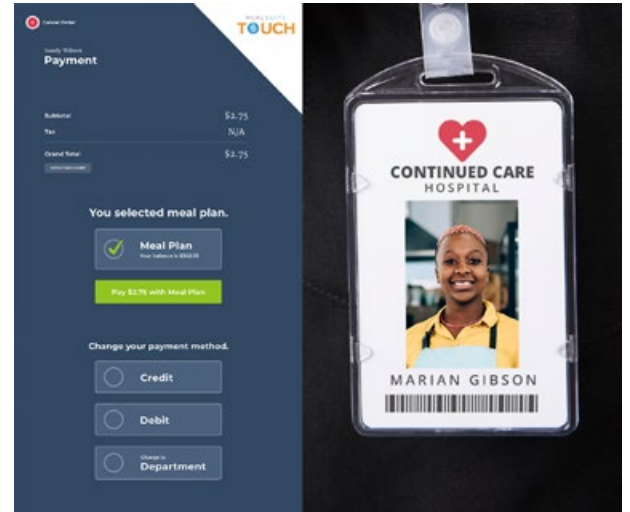

Integrate & Elevate All of Your Foodservice & Retail Offerings

Does your Point of Sale connect ALL of your service locations?

Not only will MealSuite's single solution manage all of your offerings from cafeteria and cafés to in-room dining and guest meals, but also your additional retail offerings such as the gift shop.

Customize a Variety of Meal Plans & Charge Accounts for Visitors & Staff

We offer a variety of convenient payment options including declining balance and points plans, charge accounts with payroll deduction, gift cards, credit cards and cash so you can offer a purchasing experience suited to your exact needs while boosting the ease of transactions for your guests.

Fully Integrate with Your Back Office

Centralized meal service management means foodservice leadership or your head office can watch employee workflow, generate financial reports, track nutritional & budgetary goals and more so you can pinpoint areas for improvement.

Why Choose MealSuite's Point of Sale Solution?

- ✓ No software initial fees
- ✓ No on-site server requirements means lower cost & less IT support
- ✓ Designed specifically for healthcare
- ✓ Easy setup & ongoing management
- ✓ Flexible to meet your needs now & into the future
